

# LED Mushroom

Striker available in 7W, multiple colors trims

Overdrive has developed Mushroom shape LED Fixture, which dual color lights having color Trim which can be Red/Green/Blue or Warm White color to enhance the ambience. These lamps can be directly installed in small junction boxes and POP Ceiling, as it has spring clips attached to the fixture. The patented Hybrid Driver technology powers the LED lights to ensure sturdy performance in your regular residential or commercial environment. The bulbs are designed to withstand the harsh Indian power fluctuations and occasional surge. They are designed for comfort with excellent light diffusion to appear easy on the eyes, and yet provide the desired brightness. The color can be adjusted by Turning the Light Switch On/Off within 2 seconds to get the desired colors. These are available in multiple Color Temperature of your choice to suit your customer requirements.
